An Oasis in Reno

Who would have thought that just down the street from the Reno Homebrewer there was a hidden treasure, a secret (yet public) garden spot replete with lily ponds, waterfalls, pathways and a secluded spot overlooking the Truckee River? That's what we found when Sutter and Sam Stremmel hosted the October WZZ meeting at their place of business, Sierra Water Gardens.

It was a very pleasant early October evening that became brisk as the night wore on, making the large metal fire pit a welcome addition. The attendees were able to enjoy the dock jutting out above the Koi pond in back, wander down to the river or just savor the fine bill of fare and the excellent company.

As usual, there was a panoply of potent potables, both of the home concocted and commercial varieties, and there were guitars under the stars once more in what is likely to be the last outdoor meeting until spring.

Thanks go to our gracious hosts, Sutter and Sam Stremmel, and their four legged friend.
